

HCI User Study Consent Form

Personal Finance Tracker Application

Introduction

You are invited to participate in a user study being conducted as part of a Human-Computer Interaction course project at Acadia University. This study is being conducted by **Nitish Sahni**. The purpose of the study is to evaluate the usability and user experience of an AI-powered personal finance tracking application.

Participation

If you agree to participate, you will take part in a short interview (approximately 15–20 minutes) and provide feedback on:

- Your experience with financial management tools
- Proposed application features and interface

No real financial or sensitive personal data will be collected.

Your Rights

Participation in this study is completely voluntary. You may:

- Refuse to participate or withdraw at any time
- Skip any question you do not wish to answer

Your identity and responses will remain confidential. Notes will be anonymized and used only for this course project. All data will be deleted after the project is completed.

Benefits and Risks

There are no expected risks associated with this study beyond normal conversation. Your feedback will help improve the application's usability and design.

Consent

By signing below, you confirm that:

- You have read and understood the purpose of the study
- You understand that participation is voluntary
- You consent to participate in the study

Participant
